*HAPPY CANADA Day to one and all!!*

Stampede is Just about here ...

You know what that means to westerner's VACATION TIME!!!

Why not right off the trip? If you are driving to Calgary, stop in to our office to pick up your thread and/or other CANSEW PRODUCTS, it's the business trip that saves you money in freight, and allows you to meet and or see Bev, or Tuan, in the office again... or meet Shannelle our newest member for the first time.

## NEW FOR CANSEW is

ZOOM SPOUT OILER

## SOLARO

### BONDED POLYESTER

For all your outdoor and marine sewing needs, choose **SOLARO** Bonded Polyester

#### CHEMICAL PROPERTIES OF CF POLYESTER

- Melting point 480-500°F (250-260°)
- Low moisture regain 0.4% (drip dry)
- Excellent resistance to visible sunlight and UV
- Unaffected by mildew, rot and marine water
- Good resistance to acids and cold alkalis
- Excellent bleach resistance (chlorine, peroxide, etc.)
- Specific gravity – 1.38

#### MORE GOOD NEWS
